

## The Old Family Album

By G. A. MARTIN.

This picture is a likeness of Harry Hagedorn at the tender age of five years.

Harry was born in Dallas, on the 12th day of August, just 35 years ago, and has always claimed Texas as his home. He is an Elk and a Democrat and says he doesn't know what Republican means.

Harry says his earliest ambition was to be an undertaker—just why, he has never explained to his own satisfaction—no (that) was what he set out for. At the age of 16, he was employed by George Lundermiller, of Dallas, and after five years with him was offered a position by the late J. H. Hagley and came here to take it. He arrived here on July 1, 1904, with a stomach containing 1 cent, a brass and a towel and he says: "Believe me, those depot runners couldn't get it away from me, either." He has been here ever since.

Harry is a graduate of the Bureau School of Embalming, of Chicago, and in 1904 passed the Texas state board for licensed embalmers. July 7, 1905, he formed a partnership with J. W. Beck, the firm now being the Park-Hagedorn Undertaking company. Harry belongs to the Pyramic club and is a trustee of El Paso Junior High School. He has the best climate and the best people, and he says as he has his right mind he will be here.

He married Miss Esther Fraser on April 13, 1907.

His favorite sport is hunting and he has missed more shots at ducks than anyone else in the world.

Tomorrow, the picture of L. J. Trotter at the age of eight months will be shown.

## Youthful in Body and Mind

Never mind your age—as measured by years. How do you feel? That's the thing that counts! See this sprightly old gentleman coming toward you down the street. His birth record would show you that he is past seventy. But judging from the easy grace with which he swings along, his erect carriage, his ruddy complexion, the keen glance of his eye, his whole appearance the very picture of health, you would say that he is not a day past fifty. He is young in spite of his three score years and ten.

More frequently you see the opposite of his type. Men scantly in their thirties—laggard, listless, weak, nervous—men who take no interest in life, just dragging out a weary existence, all in, tired and worn out. Though young in years, they are nevertheless old men. Their vital forces are on the wane. They've lost their "punch" and "pep." They feel old—and they look it!

Stay young by keeping your body fit. Keep stomach, bowels, liver, kidneys and bladder healthy and active. Build up your strength and health. Nothing will accomplish these results better than

**LYKO**  
The Great General Tonic.  
Look for "LYKO" when you are feeling this way: listless, tired and worn out. See for yourself how quickly it cures weakness, a tired feeling, a loss of energy, a loss of appetite. It's a tonic, a stimulant, a blood-builder, a nerve tonic, a muscle tonic, a general tonic, a general tonic, a general tonic. Look for the name on this package and accept no substitute.

## Conversation You Hear In Lobbies and On The Streets; Do Unto Others Before They Do Unto You, The Motto

By "A. LISTENER"

"Yes, I picked up five hundred shares of Ocean at \$1. I think it will go to \$15 before spring."

"Hello, Bill! Where the deuce have you been? I have been looking for you. Say, did you get in on Home Union? I took 200 shares. I only wanted 100 but thought I would get an extra hundred for my friends. It's now \$1.50 but being as it's you, I'll let you have it at \$1.45. I am only doing this for old time's sake, you know."

"How about Home Union? Do you think they will strike anything?"

"Sure! Say, old man, why in the world don't you get in on these leased? I have \$100 right in the pocket, and if you are not already in, I will sell you some of mine so you can make something easy. Pshaw! I thought sure you were in on this or I would have sent you sooner. I've got it taken some cash, and will sacrifice 200 shares if you will take it today. But I will only let loose of 50, and I would like to see you have it."

"Well, I thought you had got lost. I have been waiting for you for almost an hour. Sit down. Now, look here, Will. Of course, I am going to be as good as my word. Tomorrow, you know, I agreed to let you in on this at \$1.75. I understand that it is now \$1.15. But you know me, and I know you, so if you want the 200 shares at that figure, take it along, but you understand, I am the boss because they expect to apud in within a few days."

"Oh, yes! Yes, I understand. Of course, life is a gamble, you know, but we must take a chance these days. Nothing risks, nothing gains. That's the way John D. got his money. If you really want to get in on the money, why don't you buy 500 shares of mine? I can let you have a few shares of mine if you want it, but I don't want to speculate on my friends. In the first place, I am not selling stock, but in order to accommodate you, I can let you have half of my holdings a little cheaper than you can buy elsewhere."

"Of course, you know it takes time. They have had a little bad luck. It takes time to get things right. But, take it from me, this is a good buy, because they are within two miles of a 3400 barrel well. Oh, yes, they'll strike it. You better take these 100 shares while taking is good, tomorrow may be too late, and then you'll be kicking yourself."

"That's all right, now; that's all right, but listen. How did Henry Ford make his money? You know very well that he had to risk something, didn't he? Well, there you are, everybody has to risk something if they ever expect to get ahead in the world. So I don't see what people are thinking about by not taking some of this stock. Yes, yes! I know, but listen to me. If you buy some of this stock today you will thank me, because I wouldn't let a bit of money go to see this go to \$100 per share. Think what that would make you—\$75 profit. A hundred dollars invested in this stock now means a fortune. Tomorrow, they expect to begin drilling within the next few days. Of course, it would be better if you could take 200 shares, but any-how take the 100."

## Seborrhea Kills Hair Famo Stops Seborrhea

Seborrhea is deadly to the hair.

But Famo will stop it and make the hair and scalp clean and healthy.

Every person who has dandruff has Seborrhea.

It is the dangerous disease that attacks the hair roots. It causes sickly, falling hair; and finally baldness.

## Famo Destroys Seborrhea Germs

Famo was perfected by one of the old pharmaceutical houses of Detroit to kill this deadly germ.

It has succeeded in thousands of cases.

No matter how badly you are afflicted by Seborrhea, Famo offers immediate relief.

Famo destroys the Seborrhea bacilli.

It stops the unhealthy excretion which forms in scales and flakes. This is commonly known as dandruff.

## Most People Have Seborrhea

Famo will grow new, healthy hair. It makes the hair soft and luxuriant.

Famo gives added beauty to the hair. It prevents falling hair and itchy scalp.

Seborrhea afflicts most people.

Deep down in the sebaceous scale glands it attacks the hair roots. Allowed to run unchecked, it is fatal to hair, just as Pyorrhea is fatal to teeth.

It is not enough to remove the dandruff scale.

The deadly Seborrhea germ itself must be destroyed.

Famo destroys it and nourishes the hair roots.

## Famo is Free From Alcohol

Famo is not an experiment. It contains ingredients well known to the medical profession.

But until they were combined in Famo they had never been used in treating the hair and scalp.

For three years Famo was tested before it was offered to the public.

By its success in thousands of cases it has proven that it is the one treatment for Seborrhea.

Famo contains no alcohol.

Alcohol dries the scalp and hastens grayness.

## Use Famo Every Day

Famo retards grayness by making hair and scalp healthy and keeping them so.

Famo should be used every day. Its application takes but a moment.

No massaging or shampooing is necessary.

Sprinkle Famo on the head and almost instantly it is absorbed by the scalp and is fighting the Seborrhea microbe.

## Dollar Bottle of Generous Size

Famo is economical. The dollar size contains a third more than the average.
